

KUMAR UTKARSH

Cybersecurity Analyst · SOC Operations · Threat Detection & Incident Response

+91 8750637991 · kutkarsh24@gmail.com · linkedin.com/in/kumarutkarsh87 · github.com/Kutkarsh24 · Delhi, India

PROFESSIONAL SUMMARY

Final-year B.Tech CS student with hands-on government-sector cybersecurity experience at DRDO, specialising in SOC operations, threat detection, incident response, and network security. Built a personal SOC home lab with Splunk and Wazuh for real-time log correlation, alert triage, and attack simulation. Proficient in SIEM, IDS/IPS, vulnerability assessment, and scripting. TryHackMe SOC Level 1 certified.

EXPERIENCE

Cybersecurity Analyst Intern · Defence Research & Development Organisation (DRDO) Dec 2024 – Mar 2025

Civil Lines, Delhi · India's premier government defence R&D agency · Active Security Clearance Context

- Implemented end-to-end cryptographic pipelines AES, RSA encryption/decryption and digital signature validation securing classified data exchange workflows.
- Conducted offensive security exercises simulating SQL injection attacks against test databases; implemented parameterised query defences, eliminating all injection vectors.
- Configured firewall rule sets, intrusion detection systems (IDS), and VPN tunnels to strengthen the organisational perimeter and reduce attack surface.
- Researched MitM, packet sniffing, and lateral movement TTPs; produced remediation playbooks adopted by the security team.

Software Engineer Intern · Slash Mark Jul 2024 – Aug 2024 · Gurugram

- Engineered responsive React.js UIs and RESTful Node.js/Express APIs, improving user satisfaction scores by 15% post-release.
- Debugged production codebases, improved test coverage, and optimised front-end performance — demonstrating engineering rigour transferable to SOC workflows.

SECURITY PROJECTS

Home SOC Lab — Threat Detection & Incident Response | Splunk · Wazuh · ELK Stack · VirtualBox

- Architected a virtualised SOC environment with Splunk SIEM + Wazuh EDR ingesting logs from Windows/Linux endpoints; wrote correlation rules detecting brute-force, privilege escalation, and malware execution.
- Ran MITRE ATT&CK-aligned attack simulations, performed end-to-end incident triage, documented findings in formal incident reports, and rehearsed full IR lifecycle (Detection → Containment → Eradication → Recovery).

Network Traffic Analysis & IDS Deployment | Wireshark · Snort · DNS · TCP/IP

- Captured and deep-inspected live traffic to identify port scans, DNS tunnelling, and ARP spoofing; deployed Snort with 20+ custom rules and produced SOC-style threat reports with IOCs and TTPs.

Incident Response Simulation | TryHackMe SOC Level 1 · Phishing Analysis · SIEM · Malware Triage

- Investigated 15+ simulated phishing, malware, and insider-threat scenarios; applied full IR lifecycle using SIEM dashboards, email header analysis, and endpoint artefact review.

TECHNICAL SKILLS

SIEM / SOC Tools: Splunk, Wazuh, ELK Stack, IBM QRadar (familiar), Microsoft Sentinel (familiar)

Security Tools: Wireshark, Snort, Nmap, Nessus, OpenVAS, Burp Suite, Metasploit (basic)

Networking & OS: TCP/IP, DNS, HTTP/S, Firewalls, VPN, IDS/IPS, Active Directory, Linux (Kali/Ubuntu), Windows Server

Programming: Python, Bash, PowerShell, C/C++ (basic)

Domains & Frameworks: SOC Monitoring, Incident Response, Threat Intelligence, Log Correlation, VAPT, Digital Forensics, Cryptography, MITRE ATT&CK, NIST CSF, ISO 27001 (awareness)

Certifications: AWS Cloud Practitioner (pursuing) · CCNA (coursework) · CISCO: Introduction to Cybersecurity · CISCO: Networking Basics

EDUCATION

B.Tech Computer Science · Guru Gobind Singh Indraprastha University, Delhi Expected Jul 2026 · GPA: 8.08 / 10

Relevant: Computer Networks & Security, OS (Windows/Linux), Cybersecurity Fundamentals, Ethical Hacking, CCNA

ACHIEVEMENTS & RECOGNITION

- **Codekshetra'24 Hackathon;** competed against 200+ teams with a cybersecurity tool built under 24 hours.
- **HackVortex Hackathon;** advanced to final round in a security-focused challenge.
- **MAIT 5.0 Hackathon;** recognised for technical innovation in a multi-domain competition.
